

Anti Trafficking Center is an NGO whose **mission** is to promote universal human rights in Serbia as well as in the region with a special emphasis on combating trafficking in women and children. ATC's work is based on principles of support, trust and believing in women, against all sorts of exploitation, violence against women, and for a society without gender based discrimination, economical and social inequalities.

Anti Trafficking Center - ATC is developed as an answer to the growing problem of trafficking in women in Serbia. Anti Trafficking Center is formed with a need to focus its work on the prevention and education of trafficking in women and children on much broader level than «sex trafficking». An essential aspect of human rights based approach to trafficking in human beings is to put emphases on gender perspectives. The strategy of ATC includes the combating of gender based violence and patriarchal structures that fosters a favourable environment for trafficking.

In the previous years, ATC developed **preventive program** through education of the secondary school population, peer education and peer trainings. With this program activities we are continuing with the implementation of the preventive activities. **Raising awareness** among young people on the issues of gender based violence, safe migration and other forms of human rights violations is essential for providing information's about the risks of falling into trafficking and ensuring the recognition of their human rights.
